PAYABLE TO:
THE ONTARIO RURAL
COUNCIL**

The Ontario Rural Council's Rural Health Working Group first initiated *The Rural Health Strategy* as a multi-level, holistic approach to help address health needs in today's rural communities.

That initial concept has since evolved into this TORC resource tool designed to stimulate ideas and assist rural communities in establishing a comprehensive approach to rural health concerns. **THE RURAL HEALTH STRATEGY: A Community Planning Guide** is the result of extensive consultations and valuable input. Here you'll find a wide range of highly-effective training module topics:

-  Group Development
-  Evaluating Community Initiatives
-  Exploring Community Assets
-  Exploring Push-Pull Factors
-  Promoting Youth Careers in Health
-  Demographics and the Health Care Workforce
-  Multidisciplinary Health Teams, and
-  Fundraising Ideas

The Planning Guide features proven presentation techniques such as: brainstorming, guided discussions, brief lectures, group activities and self-study. Helpful tips for the facilitator are also included.

This Guide is an ideal springboard for community initiatives! All the vital references and resources are here to provide you with what you need to get started...and where to turn when you're ready for more!
